Description: With *Writing to Awaken*, you'll learn how to break free from the trance of mistaken identity and discover your essential, authentic self. *Writing to Awaken* is an inspirational investigation of the self through expressive writing, guiding you along the path of awakening through radical truth-telling and self-inquiry. In doing so, you'll come to realize that once you engage in this radical truth-telling, expressing yourself with complete honesty, your story changes; and when your story changes, your life is transformed. Rather than sticking with your illusive and tricky "Story of Me," you'll be prompted to go even deeper, piercing your personal myth and illuminating aspects of psyche and spirit that give way to profound moments of understanding and personal healing. This is not a how-to book for writers; it's an invitation on a journey of self-discovery—a guide to facing yourself without flinching, accepting yourself as you are, surrendering to what is, and daring to question and transform what isn't true. With targeted and revelatory questions, you'll be prompted to explore your own personal narrative—to write honestly about your deepest wounds, greatest challenges, hidden gifts, yearnings, and opportunities for growth—in order to discover a deeply authentic understanding of yourself and move toward a more liberated, truthful life. We each have our own story, a personal myth constructed from the content life presents us: we connect dots to shape the narrative, devise plotlines from circumstance, change characters, fashion conflicts, and adjust structure, settings, and themes as our lives unfold. But so often, over time, we come to believe that we are our story, identifying so strongly with the tales we've told ourselves and others that we cling to them for our very existence—even when they don't quite fit. The realization that there's a discrepancy between the narrative you've crafted and your authentic self can be disconcerting at first, but the exploration of that gap is a doorway to personal freedom, and this book will lead you through it. The writing exercises in this guide, one for nearly every week of the year, ask you to tell the whole truth about your experience.

A burden may be lifted. Mark is such a skilled writer and teacher. A shadow might reveal a long-hidden secret. When a person reaches a roadblock, the book foresees this possibility, and even probability. Public disclosure: I have read several of Mark Matousek's books, and have taken an on-line writing course. The book's value is that it seems so personal—directed at each reader. I have gained tremendous insights. I say this because the on-line classes offer samples from class-mates. There is a truth that the author points out: the story we have created of our lives is not always true. I am a grateful student. The books start each person with their own beginning point. Not all these lessons were expected; nor were they always welcomed. The book's value is beyond description. And when we discover, when we uncover the truth; we find a new freedom. Then you are encouraged to continue: or to grasp and examine further. I wish anyone on the journey well, and may you find the treasures that this book helps you discover, find, and develop. And then we begin the journey that is personalized through our writing. There is no doubt that you will gain immensely; profoundly; and in unexpected ways.
